

Points

This screen has moved to **Operations**. Points now live on the **Points** tab of the **Business** → **Operations** screen in the left menu, shared by the restaurant and hotel modules. Restaurant Management now keeps only **Requests** and **Settings**; its **Operations** link takes you there.

The screenshot shows the USEROAM interface. The left sidebar contains a menu with items: Opted-in Guests, Useroam AI · Autopilot, BUSINESS (Events, Treasure Hunt, Restaurant, Hotel, Retail, Staff), Operations (highlighted), Automation, and Module Permissions. The main content area is titled 'Operations' and includes a subtitle 'Daily tasks, points and reports (shared by restaurant and hotel)'. Below this are tabs for 'Daily Tasks', 'Points', and 'Report'. A legend indicates: All good (green), Needs work (dirty or overdue task) (orange), and Urgent (out of order or failed measurement) (red). A '+ Add point' button is in the top right. The main area lists points: 'Depo' (2 points, all clean), 'Havuz' (2 points, all clean), 'Lobi' (3 points, all clean, tasks 0/12), and 'Mutfak' (5 points, 1 Out of order, tasks 0/2). Each point has a list of tasks with their status and completion progress.

Point	Status	Tasks
Depo	2 points · all clean	Kuru Gıda Deposu (Clean · 0/10), Soğuk Depo (Clean · 0/10)
Havuz	2 points · all clean	Açık Havuz (Clean · 0/10), Havuz Makine Dairesi (Clean · 0/10)
Lobi	3 points · all clean · tasks 0/12	Lobi Erkek Tuvaleti (Clean · 0/10), Lobi Kadın Tuvaleti (Clean · 0/10), Resepsiyon (Clean · 0/10)
Mutfak	5 points · 1 Out of order · tasks 0/2	Derin Dondurucu (Clean · 0/2), Fritöz (Clean · 0/1), Ocak ve Fırın (Out of order · 0/1, Teknik), Sıcak Servis Hattı (Clean · 0/2), Soğuk Hava Dolabı (Clean · 0/3)
